GOOD HUMOR—Jeanne Wilkerson and Jan Reader share in the joy that sucking on an ice

cream can bring on a sunny spring day.

PERFORMANCE WEDNESDAY

Symphony concert set

A West Coast premiere of Paul Hindemith's "Symphonic Metamorphoses" will be featured when the Symphonic Band of California State University Long Beach, gives a benefit concert at 8 p.m. Wednesday, in the Cal Poly Theatre.

Bonsai class to be offered

Japanese bonsai culture is the subject of a new Cal Poly Extension course which will join a previously offered beginning bonsai care course this quarter. Both courses, Bonsai: Technique and Care (OH E 146X-01) and Advanced Bonsai Culture (OH E 147X-01), will begin the second week of April and will study the techniques, perception, training, culture, art, and creation of Japanese bonsai. The advanced course will also cover landscaping with bonsai and the flow aspects of the art.

The courses will be taught by Ornamental Horticulture Department faculty member Garth McKesson, who has over 14 years of experience with bonsai and their creation.

The beginning course will meet Wednesday from 7 to 9:30 p.m. beginning April 10. Advanced Bonsai Culture will meet from 7 to 9:30 Tuesday night beginning April 9. Both classes will meet in Laboratory A of the Ornamental Horticulture unit.

The fee for each course, including materials, is \$33.00.

Holiday hours

The University Library will be closed from 12:00 noon to 3:00 p.m. on Good Friday, April 13. On Saturday April 13, the Library will be open from 9:00 a.m. to 1:00 p.m. Easter Sunday, April 14, the Library will remain closed.

Tickets are 75 cents for students and \$1.50 for all others and may be purchased at the University Union Information Desk, the Premiere Music Company, and Brown's Music Store, both in San Luis Obispo.

With Larry G. Curtis as its conductor, the Cal State Long Beach band has been acclaimed as one of the nation's finest. It has been invited to perform for the 1974 Music Educators National Conference, which will be held in Anaheim, and is in the midst of a concert tour of the Pacific States.

The concert program has not been announced yet but it is expected to include numbers by Igor Stravinsky, Bach, John B. Chance, and Bernard Rogers.

The receipts from the concert will be used to raise funds for future tours of the Cal Poly Symphonic Band.

William V. Johnson, who is director of bands at Cal Poly,

said there are two ways in which the public can be involved in Wednesday's concert.

"Besides being invited to attend the concert, we are very anxious to contact San Luis Obispo area residents who want to host members of the Long Beach band in their homes the evening of April 10," he said.

"We need families who are willing to pick up the band members late in the afternoon, return them to campus for the concert, and provide them with lodging and breakfast before they leave San Luis Obispo the next morning," he explained.

Those interested in hosting members of the Long Beach band, or who wish to learn more about doing so, can contact Johnson at 546-2556 or 773-4580.

Wednesday's concert is sponsored by the university's Symphonic Band and Music Department.

Veterans must file

The Veterans Administration has timely advice for one million veterans studying at colleges and universities under the G.I. Bill: Return these "cert" cards promptly to insure payment of education allowances for the final month of training.

Officials explained that the certification of attendance card the veteran receives with the next to final check should be filled out, signed and returned to the VA regional office. Otherwise, the agency can't prepare a final check for the current school year.

For most veterans, final months of training are May or June, and most "cert" cards will be mailed in April. Forms have already been mailed to veterans whose enrollment periods end earlier, however.

The officials cited another reason veterans should return their "cert" cards promptly:

"If the cards are not returned at the end of the current semester," they stressed, "the veterans cannot automatically be enrolled for upcoming summer or fall sessions, if they plan to continue."

Also, it was pointed out, veterans attending college under the G.I. Bill must keep the VA informed on changes in the number of dependents on education programs.

"At the same time," officials continued, "college registrars should insure that the veteran's enrollment for the school term is certified promptly to the Veterans Administration, to keep allowance checks coming on time."

Details on education benefits are available at the Los Angeles and San Diego Regional Offices or from local veterans service organizations.

Horse program buys a champ

by CANDI IRVING

Seventeen-thousand dollars may seem like a lot of money to pay for a horse, but this university doesn't think so. Thessaliann, a thoroughbred mare, was purchased by the Foundation to augment the horse program here.

This mare is from champion stock. First Balcony, her sire, is an eight-time stakes winner. Her dam, Thessaly, has borne 8 other stakes winners. Thessaliann has won 7 races in her own right.

There is a bonus which accompanies the purchase of this champion: She is in foal. The foal is sired by Gentle Dancer, also a race winner.

The Foundation, which provides services supplementing the education program at the university, bought the mare, in foal, for \$17,500.

The horse program here began in 1960 at the urging of the California Thoroughbred Horse Breeders Association. The program provides preparation of students for management roles in horse breeding establishments or as owners of horse breeding farms.

Practical experience with horses for students in the program is offered by the herd of eight thoroughbred and eight quarter horse mares maintained by the Foundation.

The herd was established through donations of mares by the industry.

The program includes 10 thoroughbreds, 20 quarter horses, two Appaloosas, and saddle horses maintained for use in the beef cattle enterprise program.

Ample opportunity is offered students to gain experience with working stock horses on the 1,800 acres of range land which support a 100 head cow-calf operation plus representative herds of other breeds.

In addition to the Foundation horse facility, a horse barn is provided for students participating on the horse show and rodeo teams.

Students from a cross section of the university's 51 majors also maintain their own horses on adjacent small ranches catering to boarding horses.

Richard Johnson, head of the Animal Science Department, which offers the horse program as an option to the regular animal science curriculum, says, "We occasionally purchase a replacement mare to introduce students to new types and bloodlines not already in the herd."

William Gifford, animal science faculty member in charge of the horse program, says Thessaliann and her foal will provide "invaluable experience to the students in the horse program."

The horse program is self-supporting. Yearlings produced by the 16 mares are sold in futurity sales and other auctions.

TALENT MIRRORED—Pianist Eugene Pridmore pauses for a moment of reflection following his concert Saturday night. Pridmore played selections from Chopin, Beethoven, Brahms and Schubert during his performance at Cal Poly Theatre. He is currently the chairman of piano at Iowa State University and has won prizes in international competition throughout the United States, Canada, Brazil and Russia.

Page 2 Tuesday, April 9, 1994
**Metric system
to be studied**

Principles, applications, and conversion to the metric system of measure for classroom teachers will be the subject of an advanced mathematics seminar offered by Cal Poly Extension.

Dr. Allen Miller, course instructor, traveled to Great Britain recently to observe the conversion to the metric system in British schools. He feels the course will appeal primarily to public school teachers.

Additional information regarding the metric measures seminar or other Cal Poly Extension courses may be obtained by calling 546-3883.

**Meeting set
for carnival**

The location for this year's Poly Royal carnival has been changed from the Yosemite parking lot to the staff parking area in front of the food processing building.

Carnival chairman J.T. Adair reports that 33 organizations have signed up for the event, but any other organization can participate if it files before April 17.

All groups planning to participate should send a representative to tonight's meeting in Science 33 to discuss booth location planning, and rate and ticket pricing.

COMMENTARY

Groucho Marx: magic "woids"

by DENNIS McLELLAN

When Warner Bros. broke the sound barrier with "The Jazz Singer" in 1927, the golden silence of the silver screen had come to an end.

The era of silent comedy, which had progressed from the wild custard pie throwing of the Keystone Cops to the refined, silent eloquence of Chaplin and Keaton was also down to its final fade out.

But the Golden Age of Comedy was not over. Although sound silenced many great careers, it also sounded the beginning for a new group of movie comedians. Schooled in vaudeville and Broadway, they used the added dimension of sound to produce even bigger belly laughs—laughs that softened the hard times of a country caught in the midst of depression.

Although Laurel and Hardy, W.C. Fields and Mae West kept audiences in stitches throughout the 1930's, it was the outrageous irreverence of the Marx Brothers, whose constant barrage of jokes, non sequiturs and outright silliness set a pace that was impossible to top.

CHICO: "I'd like to say goodbye to your wife."

GROUCHO: "Who wouldn't?"

It is humor that has aged well. Today's young audiences are turning in droves to the Marx

Brothers to fill the comic void of the 1970's.

No one could be more pleased than Groucho himself. He no longer paints on the black mustache and he's even too old to play the dirty old man who, with cigar in hand, raised more eyebrows than his own with his lecherous and sarcastic remarks.

GROUCHO: "You better leave. I hear they're going to tear you down and put up an office building."

He's old and frail now, but at 83 his wit is still vintage Groucho, as evidenced in Playboy's recent interview and his all-too-rare TV appearances.

Groucho is becoming the campus folk hero of the 1970's much as Humphrey Bogart was in the 1940's. Their common appeal must be that they both saw through the sham and hypocrisy of the world around them. Bogart may have laughed at his world, but Groucho made the world laugh.

There will always be a new generation on hand to rediscover the Marx Brothers. They didn't

raise the film medium to any great artistic heights, but they did provide endless hours of entertainment and laughter. It's what keeps Groucho going. It's how the Marx Brothers will be remembered.

GROUCHO: "Why don't you here a hole in yourself and let the sap run out."

Engineering award

Each year the Mechanical Engineering Department names a student of the year as part of the activities of Engineers' Week. The honorary title this year went to Robert V. Nugent of Lancaster.

Nugent, a senior, is president of the campus chapter of the American Society of Mechanical Engineers and a member of Tau Beta Pi, an engineering honorary society.

The student of the year is chosen by the faculty of the Mechanical Engineering Department. Candidates are judged on the basis of leadership ability and grade point average. There are 328 students in the department preparing for careers in the aerospace and automotive industries, biomechanical systems production, the petroleum industry, public utilities, and toy industry.

**No solutions
for clock ills**

The hands of the clock may vary from room to room on this campus, but plans to convert to a uniform, master clock system have been abandoned because it is assumed that everyone has watches and that "clocks are not very important any more," according to Chief Engineer Arthur Young.

Many of the university's clocks are on a master clock system based in the maintenance office. The system is designed so that the classroom clocks will correct themselves when in error. But the impulse relay that provides for this is said to be faulty, so that some clocks on the master system fail to correct automatically.

The remainder of the campus clocks not hooked up to the master system must be set individually. State electrician Dick Tartaglia said problems arise here because "many classes are in session day and night, making it difficult to correct the clocks."

Northridge leaps over Poly, 97-66

by ROBERT DRUMMOND

Mustang problems in the jumping and middle distance events were all Cal State Northridge needed to take the weekend dual track meet from Poly, 97-66.

According to track coach Steve Simmons the Mustang jumpers didn't perform up to their usual standards and were bothered by foul.

"When a jumper fouls he tends to try and adjust his style which usually throws his timing off for a good jump," said Simmons.

The Mustangs were again strong in the sprints and relays as

the Poly speeders claimed first in all the quick events.

The Mustangs cruised to a easy victory in the 440-yard relay when the Matadors dropped the baton. Both the Mustangs and the Matadors are tied for the fastest time in the nation in the relay with a clocking of 41.8.

Simmons predicts the Mustangs will have no trouble claiming the conference title in the 440 relay from Northridge.

"We beat them in the Easter Relays and Joe Prince (the anchorman) had a pulled muscle."

The Mustangs were hurt in the middle and long distance runs as the Northridge runners

dominated the events even though Poly led every running race.

"We led every race and still lost," said Simmons. "We had trouble adjusting to the wind conditions but the wind was blowing on them too."

Clancy Edwards, the super freshman speedster, again had no trouble in his sprints staying undefeated in the 100-yard race and grabbing a first in the 200-yard dash.

Edwards, the former California state champion in the 100, had little trouble as he blazed to a wind-aided 9.8 first place in the 100.

"No one in the league can come close to Edwards; he will blow by all of them."

"He isn't even close to his potential and could go 9.3 this year," said Simmons.

Edwards "put smoke on the whole world" according to Simmons when his tremendous strength carried him to a wind-aided 20.8 in the 200.

"I haven't seen anyone run the last 60-yards of the 200 as fast as Edwards in a long time," said Simmons. "He had his legs up around his ears."

The freshman sprinter has only been nipped once in the 200 this year, and that was a starter's decision by teammate Joe Prince.

Dave Hamer, the Mustangs leading pole vaulter, only went 15 feet in the vault, yielding first place to teammate Ken Haagen who jumped 18 feet 6 inches.

"We wanted to save Dave for the 180-yard high hurdles," explained Simmons.

Hamer was given second place in the hurdles when he had Matador runner Roger Patton. Both were timed in 14.6 but Patton was awarded first place.

Hamer should have won the race, according to Simmons, but hit a hurdle that slowed the senior down.

All-American shot putter Lamar Anderson threw the 44 1/2-foot 6-inches with a swollen hand to take first place in the meet. Anderson's throw was only two inches off his seasons best, not a bad effort with ailing fingers.
